Installing PRIMER

You need to be logged on as an administrator. You can keep version 6 or earlier versions installed. Download the latest setup file from our web site. Install by double clicking on the file. (If installing the trial version off-line then you must have a reasonably modern version of the Microsoft .Net framework installed). PRIMER v7 will run in trial mode for 30+ days, but eventually needs to be activated (authenticated) whilst on-line, using a licence key purchased from PRIMER-e.
